

STCW VI/1-2 Fire Fighting offshore

STCW VI/1-2 Fire Fighting Offshore - Fire Member

Purpose:

To give the student elementary knowledge, skills and attitude to fight fire offshore so he will be able to participate in firefighting offshore dressed in smoke diver outfit.

Aim:

After ended course the student will have knowledge and skills to:

- Combustion- and firefighting theory
- Respiration theory
- Theory about apparatus
- Smoke Diver tactic
- Theory about materials
- Foam equipment

Prerequisite: Health examination as smoke diver before course continues.

Duration: 3 days

Programme for STCW VI/1-2 Fire Fighting offshore

Day 1:

0800 - 0830 Theory	Introduction
0830 - 1030 Theory	Combustion- and firefighting theory- drum blasting
1030 - 1100 Theory	Respiration theory
1100 - 1200 Theory	Theory about apparatus
1230 - 1340 Theory	Smoke Diver tactic
1400 - 1530 Practical	Getting used to exercises

Dag 2:

0800 - 0940 Theory	Material teachings (Jet pipe, hoses, portable fire extinguisher, measure equipment Going through fire extinguish exercise in fire house
1000 - 1200 Practical	Exercise in extinguishing of liquid fires with water mist radiant heat exercise
1230 - 1330 Practical	Exercise in use of portable fire extinguisher
1330 - 1530 Practical	Fire drill in fire house

Day 3:

0800 - 0930 Theory	Material teaching in foam equipment Going through fire extinguish exercise in the module
0930 - 1100 Practical	Exercise in extinguishing of fire in liquid with foam in cross vessel and engine room - light foam exercise in open air
1100 - 1200 Practical	Readiness and going through fire extinguishing exercise in the module
1230 - 1500 Practical	Fire extinguishing exercise in the module
1500 - 1530 Theory	Evaluation
